

COMMUNITY WORKSHOP

Every day, for lots of different reasons, young people in FARIBAULT try alcohol or other drugs for the first time. Statistics show that by the time our youth reach high school age more than half of them have used alcohol or other drugs. (Faribault Survey, 2009)

NOW IS THE TIME TO ACT

Join us as we make community-wide decisions to prevent our young people from making that choice. Help us develop a plan to support kids, reach parents, build skills, share information, and ensure a safe & healthy future!
